We can build a house like this

A 3D architectural rendering of a single-story house with a red-tiled roof and white columns, surrounded by lush tropical landscaping including palm trees and a large green tree. The house features a covered porch with four white columns and a central wooden door. The roof is a vibrant red, contrasting with the white walls. The property is set on a green lawn with a colorful flower bed in the foreground. To the left, a large, leafy green tree stands prominently. In the background, several tall palm trees are visible against a clear blue sky. To the right of the house, a green patio umbrella and a small table with chairs are set up on the lawn. A blue car is parked near the house. The overall scene depicts a peaceful, tropical residential environment.
